

Owen Scott

Full Stack Software Engineer

SUMMARY

I am a creative, detail-oriented software engineer who is passionate about front-end development. I have a proven track record of creating and implementing successful front and back-end web applications and am looking to bring my skills to a tech company with strong community values.

WORK EXPERIENCE

Software Engineer at Resilient Coders | Philadelphia, PA

January 2025 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full-stack web applications
- Applied agile methodologies like SCRUM for project management

Freelancing | Philadelphia, PA

February 2025 — Present

Created full-stack applications and websites for different clients with small businesses, managed deadlines, provided consistent updates on work, and provided a positive and productive work relationship

Delivery Driver @ Fedex | Essington, PA

December 2022 — December 2024

Developed strong skills in logistics, time management, and problem-solving under pressure while consistently delivering exceptional customer service. Managing delivery routes and coordinating timely pickups required clear communication, adaptability, and a customer-first mindset to ensure satisfaction and build client trust.

Delivery Driver @ Amazon | Philadelphia, PA

June 2022 — November 2022

Demonstrated strong problem-solving and adaptability by navigating dynamic delivery routes and resolving logistical challenges in real time while also maintaining high levels of efficiency and punctuality
